BACKGROUND | PHILOSOPHY

I graduated from Kings College London with a BSc in Computer Science and then worked in the IT Industry [Distribution] for 12 years. From 2002 I was a consultant for several years as a locum IT Manager for a variety of companies: recruitment, distribution, wine and spirits and security.

As of 2009, I now work as a web-contractor developing data-driven web-sites [full stack] and mobile sites with App conversion. I work in an MVC environment [CI/Laravel] and use PHP/Laravel for eCommerce. It is far simpler to visit www.vadoo.co.uk where you can read all about this in some depth. I write Web APPs not just web-sites.

I am quite happy to work as a contractor [remote OK as I have a full server setup] or a part-time employee for large on-going projects. If required I will embrace Agile/Scrum and collaborate via Git/BitBucket. I am equally at home working in a *funded* start-up with a tight team or simply developing a MVP on my own as a full-stack developer.

SKILLS | Intermediate | Expert

PHP | MySQL – complex secure RDBMS | HTML | Javascript | JQuery | CSS | JSON | APIs | AJAX

Materialize | Bootstrap | Animated CSS & Canvas | GreenSock | chart.js | MapBox

Laravel | CodeIgniter | custom PHP

JQuery Mobile | React Native

InDesign | PhotoShop | Sublime or Atom [Linux] | Word | Excel | Wordpress Blog - styling

Apache | XAMPP | SEO Tools | GIT or Bitbucket | ISP SSL Hosting

Windows | Mac OS | Ubuntu Linux - LAMP | Android
